Work Experience

E DADDY - Auto tech   UI UX Designer   *APR 2023 - PRESENT*

E DADDY- Auto tech is an electric vehicle manufacturing and automotive technology company.

- Designed and developed a vehicle telematics web platform with interactive infographics to visualize real-time data from Vehicle Control Units (VCU) and Battery Management Systems (BMS).
- Built a service center web application to track and manage vehicle after-sales service efficiently, streamlining workflows for better service tracking.
- Designed mobile applications to manage electric vehicle battery swap stations, improving user accessibility and operational efficiency.
- Led the redesign of an internal ERP system, optimizing inventory management, CRM, and sales chain processes to enhance overall business operations.
- Developed a vehicle instrument cluster UI, ensuring it was adaptive for touch-enabled interfaces with a minimalist design approach.

Zustpe Payments   Junior UI UX Designer   *AUG 2022 - APR 2023*

ZUSTPE Payments is a Fintech Based Company located in Chennai.

- Designed a fintech product with multiple payment flows, integrating 20+ BBPS services, UPI, ad-hoc payments, recurring payments, and an autopay system during its emerging phase.
- Handled the entire design process—from conceptualization and user research to information architecture, wireframing, prototyping, and crafting intuitive, visually appealing user interfaces for both mobile and web.
